EDUCATION

B.Tech in Artificial Intelligence & data science

Geethanjali Institute of science and Technology

2024 - 2028

CGPA 9.4

SKILLS

- Programming: Java & Python
- DSA: Arrays, Strings, Linked List, Stack, Queue (Basics)
- Web : HTML, CSS, JavaScript
- CS Fundamentals: OOP, DBMS (Basics)
- Communication & Resilience
- Canva

CERTIFICATIONS

- McKinsey.org Forward Program
- Introduction to AI-Great Learning
- Generative AI For All -Infosys Springboard
- Participation in poster presentation-college Event

PROFILE

Motivated 2nd-year undergraduate student with a strong interest in problem-solving, data structures, and software development. Actively building coding skills through projects, contests, and self-learning. Seeking opportunities to gain real-world exposure and mentorship.

WORK EXPERIENCE

Worked as Python Developer intern at ShadowFox.

PROJECTS

- Web Scraper: Developed a basic Python script to extract data from websites using HTML parsing techniques.
- Hangman Game: Created a text-based Hangman game implementing loops, strings, and user input validation.
- Simple Calculator: Built a Python-based calculator handling basic arithmetic operations using functions and conditionals.
- Guess the Number: Designed a Python guessing game using random number generation and control flow.
- Class Work TimeTable - designed a time table using HTML.
